*****CLINIC SPOTS ARE LIMITED*****

*****REGISTER EACH WEEK BY EMAILING MIKE LOUIS AT HTCTENNISPRO@GMAIL.COM*****

DOUBLES CLINICS

Doubles focused clinics. We combine instruction and drills designed to take your doubles game to the next level, with match play. We plan 45 minutes of doubles concept drills and 45 minutes of match play with coaching. If you are comfortable with your shot making, these are the clinics for you.

CARDIO TENNIS CLINICS

Get your heart pumping and work up a sweat with drills that'll get you moving! High energy clinic that combines cardiovascular activity and everything we love about tennis. Great for all skill levels.

INTRO LEVEL CLINIC

New to the game? Let us teach you the game and skills you need. Each class will review concepts from the previous week and then introduce a new concept that builds upon the previous skills. Although this class is designed for the beginner student, it is not uncommon to have students with previous experience join to refresh their skills.

CLINIC POLICY

Clinics will always be held when members sign up in advance. If only one player is signed up for a specific clinic the clinic will run at the clinic rate and will be half the duration. If two people sign up for any clinic the clinic duration will be one hour at the clinic rate. **If no members sign up twenty-four hours in advance then the clinic will not run.**

*****Our weekly clinic times don't work for you??? Group and Private Lessons are available to setup at your convenience*****
